# dulzamara

b e a c h w e a r

At Dulzamara, we are fully focused on the planet. We are sure that all small actions can help transform the world.

It's time to focus on nature and everything it has given to us.

We are conscious that there is only one planet earth and we have to take care of it, this is why we work daily to reduce our environmental footprint.

The recycled fabrics, ecological processes, labels and protectors based on sugar cane, natural fibre cases, packaging made of corn, reuse of leftover fabrics, waste recycling, and organizational awareness are some of the initiatives we are promoting for a better world.
